

# REVERIE OPTIQUE

After 38 years in practice, I have decided to take a step back and dance into my golden years. I am not completely retiring as I will continue to practice, but only one to two days per week.

As many of you know Dr. Elizabeth Christiansen-Baron has been with the practice since 2011. She has been in practice for over 14 years. As of late, she has sold her office in Wauwatosa in order to focus on the ownership of Eye Care Vision Center. I brought her into the practice because of her superior skills, compassion and I trust you will be in good hands with her at the helm.

With this change comes a lot of new excitement into the office. We have a whole new look and name, Reverie Optique. She has brought in many unique frame styles and brands made in Italy, France and the U.S.

Our excellent staff has remained the same and are ready to continue assisting you with all your eye care needs.

Please accept my invitation to make your next appointment with Dr. Christiansen-Baron, as I know you will very pleased with her care!

Most Sincerely,

Drew J. Brooks, O.D.
